RAT Zodiac Luck in Dog Year 2018 流年运程

The dog may be man's best friend but Dog Year is certainly not the best year for the Rat. Inauspicious stars bring tears and sorrow, and there is a chance of losing your loved ones. Misfortune may befall. Avoid water activities or engaging in dangerous sports. Fortunately, there are a couple of lucky stars, offering a ray of hope, to neutralise the adverse situation. Keep yourself fit by exercising regularly.

Wealth Luck 财运

The dripping tap reflects the wealth situation of the Rat in 2018. Precious assets are trickling out of your grasp. Investing in high-risk financial products is therefore not recommended. To plug the leak, to prevent monetary loss, to avert the situation, you may like to buy yourself or your loved ones an expensive gift at the beginning of the year so as to signify "loss in wealth". This may help to stabilise your wealth in 2018.

Career Luck 事业运

Although there may be petty people trying to halt your advancement or slow down your progress, there are also aboveboard people who are willing to lend you a helping hand in times of need. Villains will not succeed and justice will prevail. As long as you remain committed to your job, continue to work diligently and responsibly in your role, your career is fairly stable in 2018.

Health 健康

The health or well being of the Rat takes a beating in 2018. An inauspicious star is lurking dangerously and is eager to draw blood. Avoid taking part in dangerous activities like rock climbing, diving, bungee jumping, etc. Donating blood and doing more charity may help to avert misfortune or disaster. You may also meet helpful people, who will help you to recover, along the way.

Relationship 感情

The Rat is threading on thin ice in relationship in 2018. Those who are married or attached should show special care and concern to their partners. If there are issues, you should nip it in the bud and prevent it from becoming more difficult and challenging. Those who are single may also find it tough going to find their right partner. Stay jovial and positive. No one likes the company of a mean and negative person.

Ox Zodiac Luck in Dog Year 2018 流年运程

Although they are not experts in socialising, the Ox is often friendly, honest and trustworthy. Your down-to-earth traits earn you many sincere and loyal friends. Together with the blessings of Nobleman stars, you will overcome the challenges that you encounter in 2018. In order not to experience big swings in their fortunes, the Ox needs to be tolerant and remain composed. You may also go traveling in 2018 to improve your emotions and fortunes. You should mind your own business and avoid being embroiled in gossips or scandals that may affect your career adversely.

Wealth Luck 财运

Man invented the car for us to go faster, invented the plane for us to fly, the ship for us to sail and the light bulb to brighten up our lives. A wealth generating machine hasn't been invented yet but the arrival of lucky stars adds a turbocharger to the wealth engine of the Ox. There is a good chance that you will be getting a fatter paycheck in 2018. However, things aren't as rosy when it comes to investment, especially high risk speculative ones. It pays to be prudent if the Ox intends to invest in 2018.

Career Luck 事业运

For some, a stable job is all they ask for. To the more ambitious ones, stability is not a good word and they would always set themselves up to move ahead and advance higher. Regardless of whether it is stability or advancement that the Ox is seeking, they should try to steer clear of office politics in 2018. It is to your disadvantage if you do things that set tongues wagging. Gossips and scandals will cast a pall over your hard work. If you are able to maintain your composure, continue to work hard and stay focused, your peers will come to your help and your problems will be resolved.

Health 健康

The Ox clashes with the Grand Duke 太岁 in Dog Year 2018. This will cause the Ox to encounter some health issues. You should beware of ailments related to the spleen and abdomen. There is also a likelihood of sprains and injury to the ankle. Watch your diet and exercise regularly. Remember to do some warm ups or stretching before you start your exercise routine.

Relationship 感情

The cupid tends to turn a cold shoulder to the Ox in 2018. Although the chances are not high, you should not be despair or give up hope. In fact, you should pay more attention to the opposite gender around you. Be more sensitive to intimate signals and you may be surprised. For those who are married or attached, there could be frequent quarrels or arguments in the household. Be tolerant and stay calm. Talk things out nicely to resolve differences.

The Goat does not get along very well with the Dog. This more or less sums up the predicament of the Goat in 2018. The presence of inauspicious stars sets tongues wagging, and gossips or scandals are hard to avoid. Others may start to point their fingers at you and you may feel wronged at times. If you are able to abide by the rules and have a clear conscience, there is nothing to fear. Do not jump to conclusions or malign others. Do not always believe what you hear. Find out the truth and see it for yourself, or else it is easy for you to have friction with the others.

Wealth Luck 财运

It's a dog's life for the Goat in 2018. It is labourious and you would have to slog like a dog. It is going to be topsy-turvy and there is a lot of running around. However, the good news is that after all the effort and hard work, you will be rewarded. Your wealth is likely to be better than the previous year. The only thing is that you have to work harder and you cannot afford to skive and slack off.

Career Luck 事业运

One person's ability is limited. It wouldn't be too bad if you have another pair of helping hands. It would be favourable to your work if you are able to partner someone or work in a team in 2018. However, do not be mistaken that by having someone to work together with you, you will have the luxury to relax and sit back to enjoy the rewards. It is all about grit and determination for the Goat in 2018. With perseverance, you will be presented with opportunities to shine. Remember, only hard work and effort will see you through in 2018.

Health 健康

In the health aspect, there isn't significant alarm bell ringing. It is relatively stable. However, it is important to ensure hygiene and watch your diet. 2018 may bring ailments related to the stomach and digestive system. Exercise regularly to keep your weight in check too.

Relationship 感情

Love is not equal for the male and female Goat in 2018. The likelihood of the male Goat getting hitched in 2018 is higher than the chances of their female counterparts. The males may encounter surprises in social gatherings. However, for those who are married or attached, it is important to stay truthful and faithful to your partner. A misstep will affect your relationship badly.

Monkey Zodiac Luck in Dog Year 2018 流年运程

2018 Dog Year casts grey clouds over the Monkey. The Mourning Star brings more tears than joy. You may need to deal with funeral matters within the household. You need to beware of water disasters too. Exercise caution and ensure safety when you take part in water sports. If there is a leaking tap in your house, make sure that you get it fixed timely. Young children should avoid participating in dangerous sports or activities as well.

Wealth Luck 财运

You fix a leaking roof on a sunny day. Now that the sky is gloomy and overcast, hopefully, you have a roof that can keep the water out over your head. What it actually mean is, hopefully, you have sufficient savings to tide you over the rough period. Wealth luck is relatively poor this year. You may lose more than you gain. You may want to buy something expensive at the beginning of the year so as to avert the monetary loss possibility. Do not be rash. Do things systematically and stay down-to-earth to improve upon the outcome.

Career Luck 事业运

Obstacles and challenges are expected for the Monkey in 2018. Before one problem is resolved, the next one comes along. Things do not go your way or progress as fast as you want them to. Advancement is hindered. Your tolerance and perseverance are tested. If you are able to stay focused, and are determined enough to pull through, you will be able to keep your position.

Health 健康

2018 Dog Year is not a good time for the Monkey to travel. During traveling, you have to beware of traffic accidents or car crash. It is also not advisable to take part in dangerous activities like diving, etc. Safety first is the key word for the Monkey in 2018. Do not be impulsive or wilful. Sometimes it is better to go a bit slower and arrive a little later than to get yourself into an accident and not able to reach your destination at all.

Relationship 感情

Looks like the cupid is not coming in this gloomy weather. Things aren't looking bright for those who are single. Their search for a partner is likely to be in vain. For those who are married or attached, spend more time with your loved ones and keep a close watch on their health. Encourage them to exercise regularly so as to build up their constitution.
